Ultrasound of Airway Breathing Circulation & Dolor

USabcd Course of UGRA
(Ultrasound Guided Regional Anesthesia)

Aarhus October 9 2013
Aarhus November 13 2013

Ultrasound Guided Regional Anesthesia

Interscalene - Infraclavicular - TAP - Femoral -
Saphenous - Subgluteal & Popliteal Sciatic

Basic Ultrasound Physics
Needle Dexterity Training in Phantoms

Advanced e-learning & workshop

Cutting edge interactive e-learning programs present the theory prior to the 1-day hands on workshop.

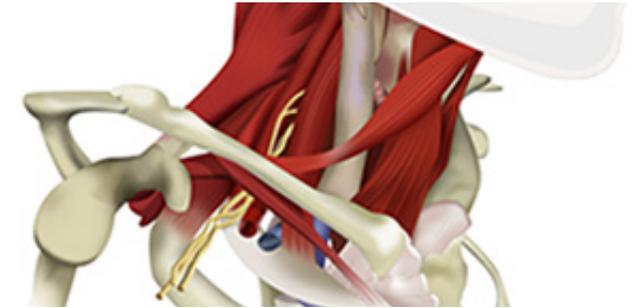

The focused 1-day hands on workshop is 100% dedicated to practice training.

Objective

To endow the participant with theoretical insight and practical skill to master the seven basic ultrasound guided nerve blocks for safe, easy and effective perioperative analgesia of the upper limb, the lower limb, and the abdominal wall. The focus is exclusively on in-plane needle guidance and single shot nerve blocks

Course convenor

The course convenor is professor (hon.) Thomas Fichtner Bendtsen joined by a team of highly skilled supervisors.

Precourse qualifications

No prior experience is required for the basic USabcd course of UGRA.
Language: English if any non-Danish speaking participants join the course.

Venue

Aarhus University Hospital, Skejby
Brendstrupgaardsvej 100,
8200 Aarhus N,
Denmark

Fee

490 euros including e-learning + 1-day workshop + lunch
