Ultrasound of Airway Breathing Circulation & Dolor

USabcd Course of Basic UGRA
(Ultrasound Guided Regional Anaesthesia)

Aarhus	May	12	2015
Copenhagen	June	08	2015
Copenhagen	November	09	2015
Aarhus	November	11	2015

Interscalene -Supraclavicular - Infraclavicular
- Axillary - TAP - Intercostal - Femoral -
Saphenous - Subgluteal & Popliteal Sciatic

Basic Ultrasound Physics
Anatomy - Sonoanatomy
Scanning & Needling techniques

Objective

To obtain theoretical and practical skill to master the ten basic nerve blocks for safe, easy and effective perioperative analgesia of the upper limb, the lower limb, and the thoraco-abdominal wall. The focus is on in-plane technique and single shot nerve blocks.

Programme

10.00-11.00 Interscalene & supraclavicular brachial plexus blocks

11.00-12.00 Infraclavicular & axillary brachial plexus blocks

12.00-12.30 Lunch (included)

12.30-13.30 Femoral & saphenous nerve blocks

13.30-14.30 Subgluteal & popliteal sciatic blocks

14.30-14.45 Coffee break

14.45-15.45 Transversus Abdominis Plane (TAP) & Intercostal nerve blocks

15.45-16.30 Certification

16.30-16.45 Evaluation

Course convenor

Professor (assoc.) Thomas Fichtner Bendtsen joined by a team of highly skilled supervisors.

Cutting edge e-learning & workshop

Interactive e-learning programs present the theory prior to the 1-day hands on workshop. The focused 1-day hands on workshop is 100% dedicated to practice training.

Precourse qualifications

No prior experience is required for the basic USabcd course of UGRA. Language: English if any non-Danish speaking participants join the course.

Venue Aarhus

Færdighedslab, Aarhus University Hospital, Nørrebrogade 44, Building 9, 5th floor, 8000 Aarhus C

Venue Copenhagen

GE Healthcare, Park Allé 295, 2605 Brøndby

Fee

490 euros: e-learning + 1-day workshop + lunch
